AVISHEK KUMAR

AI & Enterprise Technology Leader | Agentic AI | Cloud Applications | Software Engineering

EXECUTIVE SUMMARY

Enterprise technology and AI leader with **15+ years of professional experience** spanning software engineering, enterprise applications, SAP/ERP transformation, cloud solutions and **Agentic AI**. Currently at Microsoft, working on AI-powered enterprise solutions and Agentic AI experiences for complex ERP and Professional Services workflows. Experienced in translating complex business processes into AI-assisted workflows, automation and decision-support capabilities while working across product, engineering, architecture, security, finance and business stakeholders.

Earlier career includes extensive SAP PS, PPM and CPM experience with multiple end-to-end S/4HANA and ECC implementations, global rollouts, revenue transformation, project financial management and enterprise integrations across US, European and Indian customers.

CORE EXPERTISE

AI & Software Engineering	Agentic AI; Generative AI; Enterprise AI Applications; AI Agents; Workflow Automation; AI Decision Support; Solution Design; Software Engineering Lifecycle
Cloud & Enterprise	Microsoft Azure; Cloud SaaS; Enterprise Integration; SAP S/4HANA; SAP PS / PPM / CPM; Enterprise Data & Analytics
Leadership & Delivery	AI Strategy & Execution; Technical Program Delivery; Cross-functional Engineering Leadership; Product & Engineering Collaboration; Stakeholder Management; Agile / Lean; Risk & Dependency Management

PROFESSIONAL EXPERIENCE

MICROSOFT

Product Manager / Senior Software Engineer — Enterprise AI & Agentic AI | Dec 2021 – Present | India

- Drive initiatives applying **Generative AI and Agentic AI** to enterprise ERP and Professional Services scenarios.
- Developed an **ERP Agent** supporting user-access and security-related scenarios and approval automation.
- Developed a **Delivery Agent** supporting Professional Services workflows including project end-date extensions and project team-member changes.
- Worked on Agentic AI scenarios involving complex **EAC vs. CFP** project-financial processes.
- Translate complex enterprise requirements into AI-enabled workflows, defining scenarios, user experiences, business rules and technical solution approaches.
- Collaborate with engineering, product, architecture, security and business stakeholders to move AI scenarios toward production-ready capabilities.
- Defined an AI Copilot solution for Project Managers addressing project insights, cost-overrun analysis and root-cause analysis.
- Designed an MVP for **automated cost-overrun analysis** using Azure-hosted AI capabilities, with AI-powered simulation and decision-support concepts.
- Delivered 8+ technical-debt/code fixes and achieved approximately **60–80 hours/month effort savings** through technology and process improvements.

DELOITTE CONSULTING

Senior Consultant — SAP PS / PPM / CPM | Sep 2018 – Dec 2021 | India

- Delivered end-to-end SAP PS implementations across S/4HANA environments and an end-to-end SAP PPM and SAP CPM implementation.
- Worked on global programs for **Periodic Forecast & Project Progress Reporting** and **Revenue Accounting & Reporting**.
- Delivered capital-project management solutions integrating investment management and asset management.
- Delivered commercial project management solutions integrating CRM and order-management processes.
- Led requirements analysis, solution design, configuration, testing, deployment and production support across global stakeholders.
- Selected clients included **Constellation Brands, Georgia-Pacific and ABB**.

TCS

Consultant — SAP Project System | Nov 2015 – Aug 2018 | India

- Delivered SAP PS implementation, support and rollout projects; performed business-requirement analysis and solution design.
- Supported enterprise project-management and financial processes and global stakeholder delivery.

BRAMASOL INDIA PVT. LTD.

Consultant — SAP Project System | Jun 2014 – Nov 2015 | India

- Delivered SAP PS implementation and support engagements covering project financials, result analysis, revenue recognition and enterprise integrations.

• Supported custom development and integration between SAP and external systems.

HIGHBAR TECHNOLOGIES LTD.

Consultant — Project System | Apr 2012 – May 2014 | India

• Delivered end-to-end SAP PS implementations covering project planning, result analysis, revenue recognition and custom enhancements.

• Delivered SAP integration with Oracle CRM and MBS and custom development for raw-material and master-schedule planning.

• Supported SIT coordination and project closure activities.

SELECTED TRANSFORMATION INITIATIVES

Enterprise ERP Agent — AI agent capabilities addressing enterprise access/security queries and approval workflows.

Professional Services Delivery Agent — AI-powered workflows for project end-date extensions, team-member changes and project financial scenarios.

AI Copilot for Project Management — Automated cost-overrun analysis, root-cause identification, project insights and AI-powered simulation.

Revenue & Financial Transformation — Technology improvements across project revenue, forecasting and ECIF processes supporting 400+ active TNM ECIF projects.

SAP S/4HANA Transformation — Multiple end-to-end SAP PS/PPM/CPM implementations across global customers.

TECHNICAL SKILLS

AI: Agentic AI, Generative AI, AI Agents, Enterprise AI Applications, AI Workflow Automation, AI Decision Support, Prompt Engineering
Cloud: Microsoft Azure, Cloud SaaS, Enterprise Cloud Applications
Enterprise: SAP S/4HANA, SAP PS, SAP PPM, SAP CPM, SAP BW, SAP ABAP, BEx, InfoCube, AIF, Lumira
Engineering: Solution Architecture, Enterprise Integration, Technical Design, Business Process Engineering, Technical Troubleshooting, Production Support
Delivery: Agile, Lean, Requirements Engineering, Work Estimation, Stakeholder Management, Risk Management, Global Delivery

EDUCATION

Master's Degree · Project Engineering & Management
National Institute of Construction Management and Research

Bachelor of Engineering — Mechanical Engineering, Jaipur Engineering College, Jaipur — Merit certificate for excellence in studies.
